

Cruise over to Club Med

An all-inclusive vacation with Club Med offers...

Compared to a cruise vacation, where...

VS

All-Inclusive

an array of beverages, gourmet dining, endless activities and more. Even your tips are included!

specialty dining, beverage packages, WI-FI, and signature activities are almost always an additional cost.

Room To Roam

resorts surrounded by nature, spread across an average of 50 acres, and featuring three-story buildings (max.) no higher than the surrounding palm trees.

thousands of guests stacked up across 16 decks.

Convenience

an easy arrival and departure, where vacation begins the moment you arrive and your last day is spent at the beach.

embarkation lines and mandatory safety meetings.

Destination

the opportunity to truly enjoy the destination and learn about the local culture, food and people.

the itinerary is set. Tour the to destination for only a few hours, get back on board, then off to the next port of call - barely scratching the surface of where you've been.

Sports

endless sports, from classics like tennis, golf and waterskiing, or get the adrenaline pumping with flying trapeze or a beachside volleyball tournament.

sports are limited due to space and capacity restraints, because frankly 18 holes don't fit on a ship.

Kids Clubs

a vacation designed just for them, kids will enjoy endless activities like sports, gardening, scavenger hunts and more!

kids are contained to specific areas and rooms where it's more like baby-sitting than adventuring.

Dining

cuisine inspired by local specialties that are prepared by internationally acclaimed chefs, then presented in your choice of a themed restaurant or al fresco by the ocean.

the cuisine on board is prepared to appeal to a broad audience, so any specialty experiences will cost you additionally.

Club Med

Make a splash!
