## **7.1. ASSISTANCE TO PERSONS**

### **BEFORE YOU TRAVEL**

- If you are undergoing treatment, remember to take your medication and to carry it in your hand luggage to avoid interruption of treatment in the event of a delay or loss of luggage; some countries such as the United States and Israel do not allow products of this type to be sent by post.

### **WHILE ON YOUR TRIP**

- If You engage in risky physical or motor activity or travel to an isolated area during your trip, we advise You to first ensure that an emergency rescue system has been put in place by the competent authorities of the country concerned to respond to any request for emergency assistance.

- Similarly, in the event of the loss or theft of your identity documents or means of payment, it is easier to replace these documents if You have taken the step of making photocopies and noting the numbers of your passport, identity card and bank card, which you should keep separately.

- If You are ill or injured, please contact us as soon as possible once you have called the emergency services (ambulance, fire services, etc.), which We are unable to replace.

### **NB**

Certain medical conditions may place a limit on the conditions for the application of the policy. We advise you to read this Information Notice carefully.

#### **7.1.1. Medical transport/repatriation**

If you fall ill or are injured during Your Trip in your country of Domicile, our doctors will make contact with the local doctor who treated you following the Illness or Accident. The information obtained from the local doctor and possibly from your usual general doctor will help Europ Assistance, after consulting our doctors to initiate and organise, depending solely on your medical requirements:

- your return to your Domicile, or
- your transfer, where necessary under medical supervision, to a suitable hospital near your Domicile,

by light medical vehicle, ambulance, train (seated place in first class, first class berth or sleeping car), by airline or medical airplane.

Similarly, based solely on your medical requirements and on the decision of our doctors, in some cases We can initiate and organise initial transport to a local healthcare centre before considering a return to a facility near your home. The Europ Assistance Medical Department can reserve a place in the department where You are to be Hospitalised.

Only your medical situation and compliance with the sanitary regulations in force will be taken into consideration when making the decision to transfer you, the choice of the means used for this transfer and the choice of the place of any hospitalisation.

## **IMPORTANT**

**It is in this regard expressly agreed that to avoid any conflict with medical authorities, the final decision to act ultimately belongs to our doctors.**

Moreover, if You refuse to comply with the decision considered the most appropriate by our doctors, You release us from all liability, especially if You return by your own means or if your health deteriorates.

### **7.1.2. Return of family Members or an accompanying person**

If You are repatriated by us following a decision by our Medical Department, we organise the transfer of the Insured members of your family or of one person who was travelling with You so that, if possible, they can accompany You during your return.

This transfer will be either:

- with You, or
- individually.

Europ Assistance will cover travel by 1st class train or economy class aircraft.

**Transport costs from the departure point to the station or airport, and on arrival from the station/airport to your Domicile, are payable by you.**

If You do not produce receipts (hospitalisation form, proof of kinship) within 30 days of returning home, Europ Assistance reserves the right to charge You for the service in full.

#### **7.1.3.2. Early return in the event of the death of a family Member**

If, as a result of this Loss, you are required to be present to carry out administrative procedures, Europ Assistance will arrange and cover the cost of your return journey, by 1st class train or economy class aircraft, from the place of your Trip to your Domicile.

**Transport costs from the departure point to the station or airport, and on arrival from the station/airport to your Domicile, are payable by you.**

If you do not produce supporting documents (declaration of Loss to the insurer, expert's report, statement of complaint or any other document relating to your Loss) within 30 days of your return to your Country of Domicile, Europ Assistance reserves the right to charge You for the service in full.

#### 7.1.4. Hospitalisation support

### **7.1.6. Connection costs**

If following an Illness or Injury that occurred during your Trip, You have to leave a Trip location to go to a treatment facility, Europ Assistance will reimburse your return transport costs and/or the return transport costs of a person travelling with a Beneficiary, up to €150 incl. VAT per Event.

Europ Assistance disclaims all responsibility for the loss or theft of the medicines and any regulatory restrictions that could delay or prevent the shipment of medicines, as well as for the consequences arising therefrom. Moreover, the cessation of the manufacture of medicines, withdrawal from the market or non-availability in France constitute cases of force majeure that could delay or prevent their delivery.
