

Shadow Puppets

Dim the lights and raise the curtain!
Today, we're going to start your very own shadow puppet theater. This fun and creative activity is perfect for storytelling as a family. The show must go on!

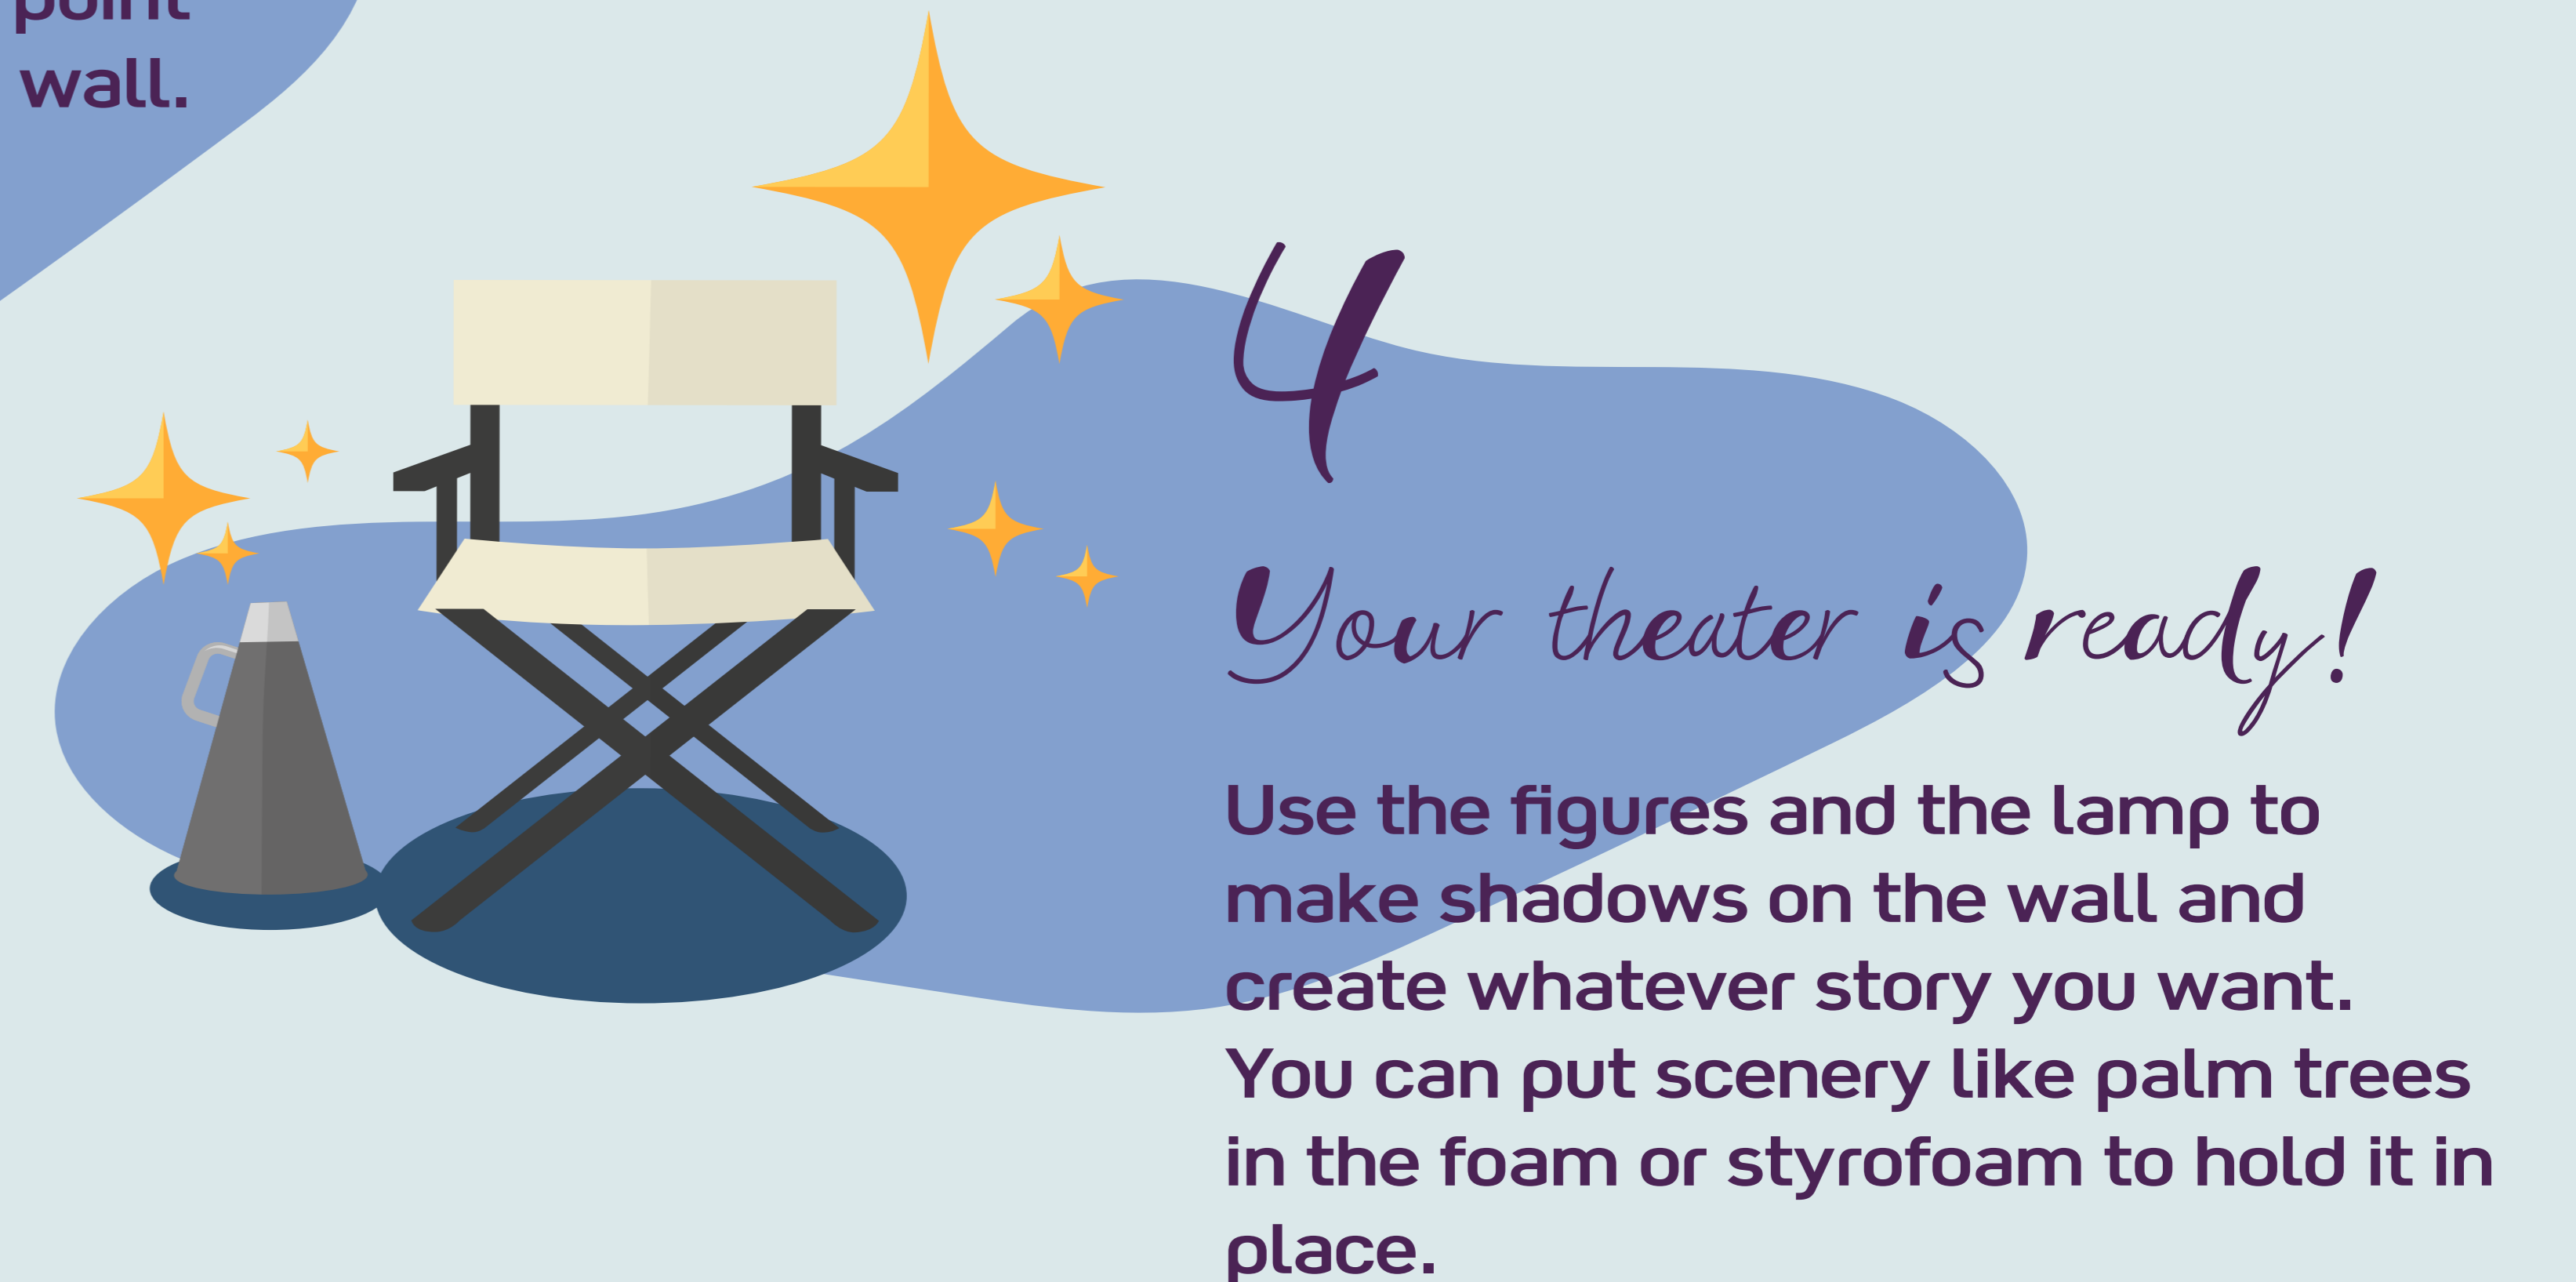

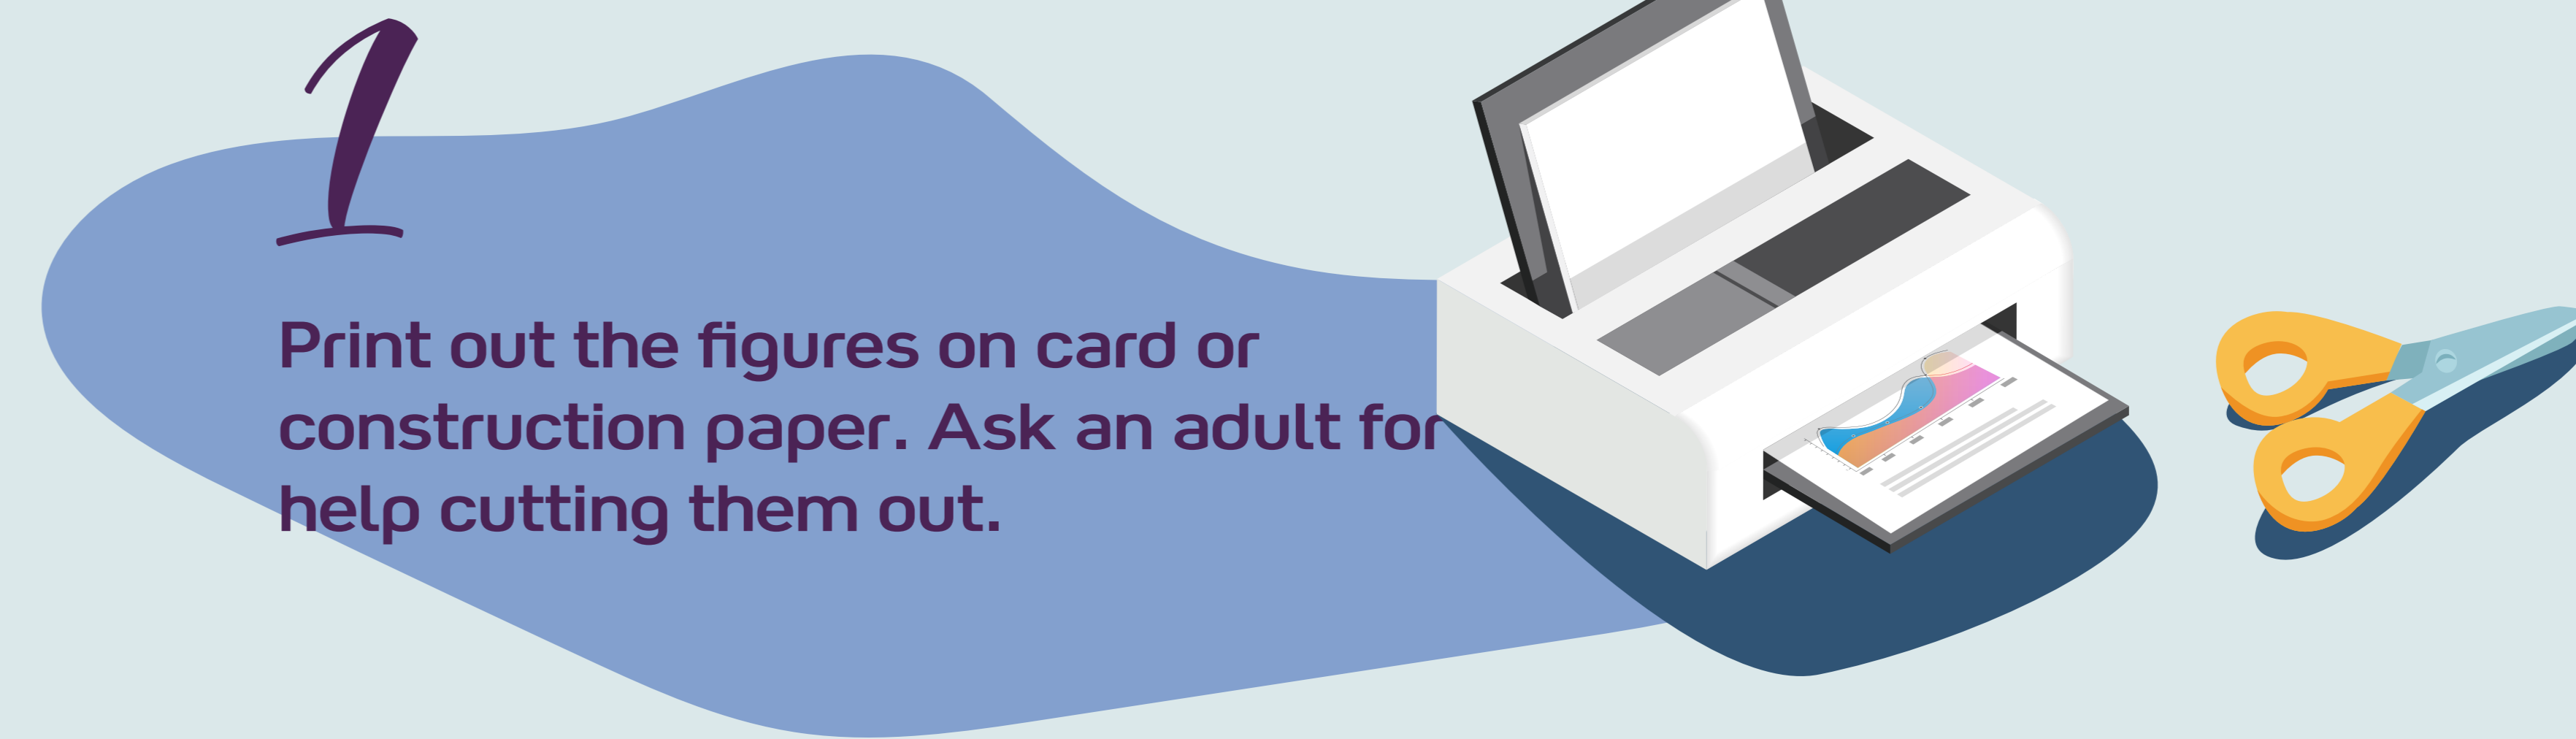

To make your theater

You need:

Optional:

String for the ball, foam or styrofoam

Take a journey into your imagination when you create stories with a beach vacation theme. We're going to make the following figures together: a palm tree, a ball, a bird, two characters and... wind!

For example, imagine that the ball is stuck in a tree and that your two characters have to find a way to get it down. Should they shake the tree? Blow on it as hard as they can? Ask the wind or a bird for help? Let your imagination run wild!

Shadow Puppets

Print, cut out, and attach the figures to the skewers.
